

# VINOLAM

- Maintains Optimal Health
- Reduces Wrinkles & Sagging
- Enhances Fertility
- Supports Heart Health
- Supports Eye Health
- Improves Skin Elasticity

**VINOLAM** is a unique blend of essential antioxidants that neutralises free radicals and protects the human body from oxidative damage by protecting the cells and minimising the damage caused by oxidation.

This powerful complex formula may help to reduce the risk of many chronic diseases, such as hormonal imbalance and infertility, for both males and females by increasing sperm parameters and shielding eggs from damage caused by oxidative stress during

folliculogenesis. It may also help in the case of heart disease by reducing LDL.

Additionally, it helps to reduce the risk of many chronic eye diseases, such as age-related macular degeneration and visual impairment from cataracts, by inhibiting lens opacification.

It also helps to brighten the skin and restore skin tone by reducing dark circles under the eyes and improving skin elasticity.

## SUPPLEMENT FACTS
